

Subject: Urgent Concern Regarding Groundwater Extraction and its Impact on the Carrizo-Wilcox Aquifer

Dear **[Official/Agency Name]**,

My name is **[Your Name]**, and I am a concerned citizen from **[City/County]**. I am writing to express my deep concern about the proposed groundwater extraction projects at Pine Bliss and Redtown Ranch, located in Anderson, Henderson, and Houston counties. These projects involve the drilling of high-capacity wells that could have significant long-term impacts on our local water supply, including the Carrizo-Wilcox Aquifer, which spans 66 counties across Texas.

The Carrizo-Wilcox Aquifer is an essential water source for millions of people, and any disruption to its stability could have far-reaching consequences for both rural and urban communities that depend on it for drinking water and agricultural use. These projects, if approved, pose a real threat to our aquifer's sustainability, and, consequently, the health of our local ecosystems and agricultural economies.

The residents of Anderson, Henderson, and Houston counties, as well as the surrounding areas, are directly affected by these proposed wells. I am urging you to take immediate action to help stop the approval of these high-capacity wells and instead support sustainable water management solutions that prioritize the protection of the Carrizo-Wilcox Aquifer and the communities that depend on it.

I would like to request that you take immediate action to:

1. Reevaluate the environmental risks posed by these projects, particularly concerning groundwater depletion.
2. Consider the broader regional impact on the Carrizo-Wilcox Aquifer, which affects not just our local communities but a large swath of Texas.
3. Support the protection of our water resources by enforcing more stringent regulations on groundwater extraction.

If you are not already familiar with the ongoing concerns related to this issue, I encourage you to visit ProtectTXAquifer.com to learn more about the situation, its potential consequences, and how you can take action to ensure the protection of our water resources.

Please let me know how I can stay updated on any developments and how I can continue to advocate for the protection of the Carrizo-Wilcox Aquifer. I look forward to your response and to hearing about the steps that will be taken to address this critical issue.

Thank you for your attention to this matter.

Sincerely,

[Your Name]
