

Greeting:

"Hello, my name is **[Your Name]**, and I am a concerned citizen from **[City/County]**. I am calling to express my concerns about the proposed groundwater extraction project in **[County/Region]**."

State the Issue:

"I am deeply concerned about the potential environmental impact of these wells, particularly the risk of local wells and springs drying up. Our community relies heavily on the aquifer for both drinking water and agricultural use. If this groundwater extraction is allowed, it could severely impact our water supply, harming both our natural ecosystem and the livelihood of farmers and families who depend on this vital resource. It is crucial that we prioritize sustainable water management practices to ensure the future health of our community and the preservation of this precious resource."

Request Action:

"I would like to request that **[Agency Name/Official Name]** take immediate action to review and reconsider the approval of additional high-capacity wells in the area. I urge you to support measures that protect our water sources and ensure responsible usage."

Request for Follow-up:

"Could you please tell me what steps will be taken next, and how I can stay updated on this issue? I would also appreciate it if you could confirm receipt of my concerns and let me know how I can continue to get involved."

Thank You:

"Thank you for your time and attention to this important matter. I look forward to hearing from you soon. Have a great day!"
